Priya Sharma

Data Scientist & Machine Learning Specialist

priya.sharma.ml@example.com | +1 (555) 890-1234 | Boston, MA

PROFESSIONAL SUMMARY

Data Scientist with 5 years of experience in statistical data modeling, predictive analytics, and machine learning pipelines using Python, Pandas, Scikit-Learn, and SQL. Expert in exploratory data analysis and Jupyter notebooks; minimal interest in front-end or full-stack web application engineering.

TECHNICAL SKILLS & COMPETENCIES

- Python, R, SQL (Analytical Queries), Pandas, NumPy
- Scikit-Learn, TensorFlow, XGBoost, Regression, Clustering
- Tableau, PowerBI, Matplotlib, Seaborn Data Visualization
- Jupyter Notebooks, Google BigQuery, Snowflake, ETL pipelines
- Statistical Hypothesis Testing, A/B Testing, Time Series

WORK EXPERIENCE

Senior Data Scientist - BioMetric Analytics Corp 2021 - Present

– Built predictive churn models with XGBoost achieving 87% precision across 500,000 customer cohorts.

– Engineered automated ETL pipelines aggregating clinical trial data in Google BigQuery.

– Presented weekly data insights and dashboards to C-level stakeholders.

Data Analyst - Quantum Market Research 2019 - 2021

– Cleaned and transformed unstructured survey data using Pandas and SQL.

EDUCATION

M.S. in Applied Statistics & Data Science - Boston University (2019)
